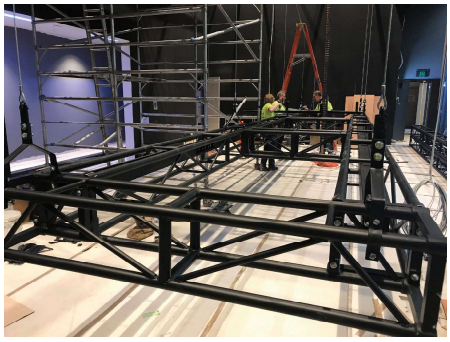
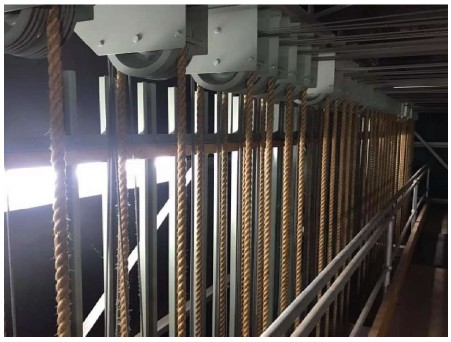
- Stage Rostra Systems
- Portable Staging Systems
- Stage Wagon Systems
- Roller and Smoke Curtain Systems
- Testing & Tagging

Servicing & Maintenance is vital to ensure the longevity and safety of stage equipment and systems, especially motorized components that requires annual inspections and lubrication. ITE recognizes that maintenance can be costly and always works to reduce the outlay required for servicing to ensure venues and schools are able to maintain their equipment. The ongoing reliability of our installations are very important to us, therefore we strive to work with venues and users to ensure your equipment is working at its best and are happy to discuss costs. ITE currently maintains equipment for more than 100 venues.





Note:
All electrical servicing is undertaken by licensed electricians.
All servicing includes a detailed report including defects if found and recommended actions to rectify. This is often discussed with the equipment users and kept with the venue post service.
All servicing is undertaken by experienced and competent ITE technicians.

Load testing is not included in general servicing. This can be included at an additional cost.
